Questions for Reflection and Evaluation

As you learned in the video to have the success you want in business and life you must become focused, a meaningful specific. If you are a wandering generality you will waste a lot of time and energy.

Therefore it is critical to be focused on what you want to become. Be clear in your vision because if you aim for nothing, you will hit it with amazing accuracy.

1. What is the vision you have for your business? Write a few sentences.

2. What is the vision you have for your life? Explain.

3. Identify what you will commit to doing to become more. What new skills will you develop? What ways of doing things in your business will you change?

4. What do you want to attract by committing to developing new skills or by changing things?

Remember the following keys to success in attracting more:

To attract attractive people you must be attractive.

To attract powerful people you must be powerful.

To attract committed people you must be committed.

Now here's the solution that most people miss.

Instead of going to work on others, go to work on yourself.

If you become more, you will attract more.
